

Divine Love Activation

Stephanie Tingle

This activation is provided by Melchizedek and is passed freely, without a monetary exchange. Melchizedek is the Messenger of God described in Hebrews as being "without father, without mother, without descent, having neither beginning of days nor end of life but made like unto the Son of God". I have been guided to provide this activation through my website. In order to keep the energy as pure as possible, each person who seeks to receive the activation should download it directly from this source. If you have received this manual via email or from another source, or if you have been charged a monetary fee for this manual, please contact me through my website to let me know. It is my intention that it remain available on my website permanently at no cost.

A rose quartz and a green aventurine are recommended for use while receiving this energy but they are not required. I've included energy-infused pictures of these two crystals on the cover page. Please feel free to print these out and use them if you don't have the actual crystals available. You may also use your own favorite heart chakra and thymus (high heart) chakra crystals instead. Watermelon tourmaline may be used to activate both the heart and high heart at the same time. The crystals become infused with loving energy during the activation and can be used during meditation or carried with you.

To prepare for the activation, please find a comfortable and quiet spot to relax. You may lie down and place the rose quartz on your heart chakra and the green aventurine directly above it on your thymus area. Alternately, you may choose to sit in a comfortable position while holding one crystal in each hand. This activation is sent to you via a call-in method. To receive it, you need only to state your intention to initiate the Divine Love Activation and the energy will begin to flow to you. Visualize white light coming down through the crown chakra at the top of your head and continuing through all of the other chakras to clear and prepare them to receive the activation. Continue this for approximately 5-10 minutes.

Breathe deeply through the nose and exhale through the mouth. You may feel your heart center expanding and opening as it is filled with pink light, lavender light, and silver-white light. The pink light represents unconditional love. The lavender light represents purity. The silver-white light represents healing and protection. These colors will enter through your heart center and be spread through your entire physical body and energy field. This will take approximately 10-15 minutes.

When this process is complete your energy field will be sealed in white light. This will protect you from negativity and will also serve as a reflective barrier so that if you do encounter negative energy, it will be transmuted into love and reflected back to its source. You may activate this energy at any time simply by stating aloud or silently, "divine love activated". In order to receive the most benefits from this healing system, it is recommended that you do this several times each day.

Blessings,

Stephanie
